STONE

design Hangar Design Group 2017

Stone è caratterizzata da volumi quasi scolpiti, dove la leggerezza del vetro soffiato si oppone alla solidità di geometrie lineari. In questo contrappunto, tra l'utilizzo di un materiale che naturalmente tende alla forma tonda e un design rigoroso che impone spigoli e linee ortogonali, si esprime l'equilibrio di una composizione luminosa di carattere, inedita.

Sorgente luminosa a LED.

Tonalità del vetro esterno: fumè, cristallo.

Tonalità del vetro interno: bianco.

Parti metalliche: nickel nero.

Stone is characterized by almost sculptured volumes, where the lightness of blown glass is opposed to the solidity of linear geometries. In this counterpoint, between the use of a material naturally tending to round shapes, and a rigorous design requiring edges and orthogonal lines, the balance of a bright, original composition is expressed. LED light source.

Outer glass colour tone: smoky, crystal.

Inner glass colour tone: white.

Metal parts: nickel black.

PEGGY

design Hangar Design Group 2014 - restyling 2017

Il vetro soffiato bianco lavorato a mano insieme al metallo lucido color piombo, interpretano la polarità cromatica del black&white con la leggerezza di un segno razionale ed elegante. Con un'installazione di grande effetto, il lighting system Peggy illumina il Café del Peggy Guggenheim Museum di Venezia.

Tonalità del vetro: bianco.

Parti metalliche: nero lucido.

The white, blown handmade glass together with the glossy black metal, with a lead-effect treatment, interpret the polarity between black&white with the lightness of a rational and elegant design. With an impressive installation the lighting system lights up the Museum Café at Peggy Guggenheim Museum in Venice.

Glass colour tone: white.

Metal parts: glossy black.

FUTURA

design Hangar Design Group 2015

Collezione di lampade in vetro soffiato disponibile in tre esclusive colorazioni abbinate a differenti finiture dell'anello metallico. Il vetro soffiato è in pezzo unico ma la particolare lavorazione lo rende di colore trasparente nella parte superiore e di colore diffusore nella parte inferiore.

Tonalità del vetro: bianco/cristallo, grigio/fumè, topazio/ambra.

Parti metalliche: nero opaco; anello metallico: bronzo, grigio antracite, marrone anticato.

Collection of lamps in blown glass available in three exclusive colors combined with different finishes of the metal ring. The glass is blown in one piece but the particular handcraft process makes the colour transparent in the upper part and diffuser in the bottom part.

Glass colour tone: white/crystal, grey/fumè, topaz/amber.

Metal parts: matt black; metal ring in: bronze, anthracite grey, antique brown.

Futura AP P

SATA

design Favaretto&Partners 2017

Questo sistema di illuminazione prosegue la riflessione stilistica di Trepai, mettendo ancora più in risalto il legno, sulla cui struttura rigorosa e geometrica poggia il corpo illuminante in vetro soffiato. La collezione è declinata in più versioni per adattarsi a diversi contesti, sia classici sia moderni.

Tonalità del vetro: ambra sfumato, bianco sfumato.

Tonalità del legno: naturale, nero.

This lighting system carries on with the stylistic reflection of Trepai, and gives even more emphasis to wood, that forms the rigorous and geometric structure where the blown glass light source rests. The collection is available in several versions to suit different contexts, both classic and modern.

Glass colour tone: shaded white, shaded amber.

Wood colour tone: natural, black.

JUBE

design Favaretto&Partners 2017

Essenziale, sinuosa e delicata, nasce dall'unione di due vetri soffiati che, una volta assemblati, danno vita a un gioco di sovrapposizioni e creano un effetto tono su tono dal fascino retrò. Grazie a un potente waterjet, che permette di effettuare sul vetro fori di diametri molto grandi, si integra al meglio la fusione dei due vetri, facendoli apparire come un pezzo unico.

Sorgente luminosa a LED.

Tonalità del vetro superiore: fumè, terra bruciata, verde antico, cristallo.

Tonalità del vetro inferiore: bianco.

Parti metalliche: oro satinato.

Essential, sinuous and delicate, was born from the union of two blown glasses that, once assembled together, create an overlapping, ton sur ton effect with a retro charm. Thanks to a powerful waterjet, which perforates glass with holes of a very large diameter, the fusion of the glasses is perfectly integrated, so two glasses look like a single piece.

LED light source.

Top glass colour tone: smoky, burnt sienna, navy green, crystal.

Bottom glass colour tone: white.

Metal parts: satin gold.

Jube SP 1G

PUPPET

design Romani Saccani Architetti Associati 2015

Collezione di lampade con diffusori in vetro soffiato sfumato e rigato irregolarmente. Le braccia del lampadario sono appese singolarmente a piacere del cliente.

Tonalità del vetro: fumè, topazio, bianco sfumato, cristallo.
Parti metalliche: cromo/cavo grigio, nero/cavo nero.

Collection of lamps with blown glass diffuser with an original irregularly lined 'dégradé' finish. The arms of the chandelier are hung individually to customer delight.

*Glass colour tone: fumè, topaz, shaded white, crystal.
Metal parts: chrome/grey cable, black/black cable.*

MIRAGE

design Giovanni Barbato 2017

Il vetro soffiato restituisce alla luce il suo ruolo centrale, direzionandola e diffondendola nell'ambiente in modo confortevole, sottolineandone la luminosità.

Sorgente luminosa LED.

Tonalità del vetro: bianco/cristallo, ambra/cristallo, fumè/cristallo.

Parti metalliche: bianco

The blown glass gives light its central role, by comfortably directing and spreading it in the environment, and emphasizing its brightness.

LED lighting source.

Glass colour tone: white/crystal, amber/crystal, smoky/crystal.

Metal parts: white.

KIRA

design Alberto Saggia e Valerio Sommella 2017

Kira è una famiglia di lampade che combina il vetro soffiato con il metallo, generando una serie di apparecchi composti da due metà antitetiche: un diffusore in vetro cristallo, decorato e impreziosito da una ricca texture superficiale, sormontato da un cappello in metallo tornito, dall'aspetto più minimale e pulito. Questa collezione combina forme contemporanee alla preziosità e allo sfarzo luminoso del cristallo dei classici lampadari veneziani.

Tonalità del vetro: cristallo 'baloton'.

Parti metalliche: ottone, bronzo, nero opaco.

Kira is a collection of lamps combining metal with blown glass. The result is a set of lighting systems composed of two antithetical halves: a diffuser in crystal glass, decorated and embellished with a rich surface texture, topped with a turned metal cap, with a minimal and simple look. This collection combines contemporary forms to the preciousness and brightness of classical Venetian crystal chandeliers.

Glass colour tone: 'baloton' crystal.

Metal parts: brass, bronze, matt black.

ARIA

design Giovanni Barbato 2017

Due vetri semplicemente appoggiati a un anello rendono la montatura elemento significativo e caratterizzante della lampada, valorizzando la leggerezza del vetro. I tagli inclinati dei vetri permettono infinite composizioni.

Tonalità del vetro esterno: cromo, rame, bianco sfumato.

Tonalità del vetro interno: bianco.

Parti metalliche: nickel.

Two glasses simply fixed on a ring make the frame a significant feature of the lamp and give more value to the lightness of the glass. Sloping glass slides allow infinite compositions.

Outer glass colour tone: chrome, copper, shaded white.

Inner glass colour tone: white.

Metal parts: nickel.

informazioni tecniche / technical information
pag. 102

CRISTALLINA

design Romani Saccani Architetti Associati 2017

L'idea guida della collezione si sviluppa attorno a un paralume, caratterizzato dalla bombatura sulla sommità e dalla tecnica dello sfumato nel cristallo, che permette alla luce di irradiarsi e diffondersi in modo confortevole nell'ambiente.

Sorgente luminosa a LED.

Tonalità del vetro: bianco sfumato, nero sfumato, cromo sfumato.

Parti metalliche: bianco.

The main idea of the collection is built around a lampshade, characterized by the curvature at the top and the sfumato technique of the crystal, which allows light to radiate and spread comfortably in the environment.

LED light source.

Glass colour tone: shaded white, shaded black, shaded chrome.

Metal parts: white.

informazioni tecniche / technical information

OTO

design Pio e Tito Toso 2015

Elementi sferici in vetro soffiato disponibili in 4 misure e due decori, con e senza sorgente luminosa. Il particolare design permette l'installazione verticale di più elementi in vetro ed infinite composizioni a scelta del cliente.

Tonalità del vetro: bianco 'rigadin', cristallo 'rigadin'. Parti metalliche: nickel lucido

Spherical blown glass elements available in four sizes and two decorations, with and without lighting source. The special design allows the installation of more vertical glass element and infinite custom combinations.

*Glass colour tone: 'rigadin' white, 'rigadin' crystal.
Metal parts: polished nickel*

Munega SP P

MUNEGA

design Luciano Vistosi 1978

Collezione di lampade in vetro soffiato e modellato a mano libera per creare una forma iconica di Vistosi.

Tonalità del vetro: bianco lucido.
Parti metalliche: bianco

*Collection of blown glass lamps and modelled freehand to create an iconic Vistosi shape.
Glass colour tone: polished white.
Metal parts: glossy white.*

IMPLODE

design Gregorio Spini 2011

Questa linea rappresenta l'illusione di una superficie creatasi dall'implosione di un volume. Il vetro, grazie alla sua densità, lascia trasparire le gradazioni di strati multipli di cristallo bianco e trasparente.

Tonalità del vetro: bianco lucido.

Parti metalliche: bianco.

A collection that represents the illusion of a surface created by the implosion of a volume. The glass, due to the thickness, shows a gradation of multiple layers of white and transparent crystal.

Glass colour tone: glossy white.

Metal parts: white.

Implode LT 38/16

SURFACE

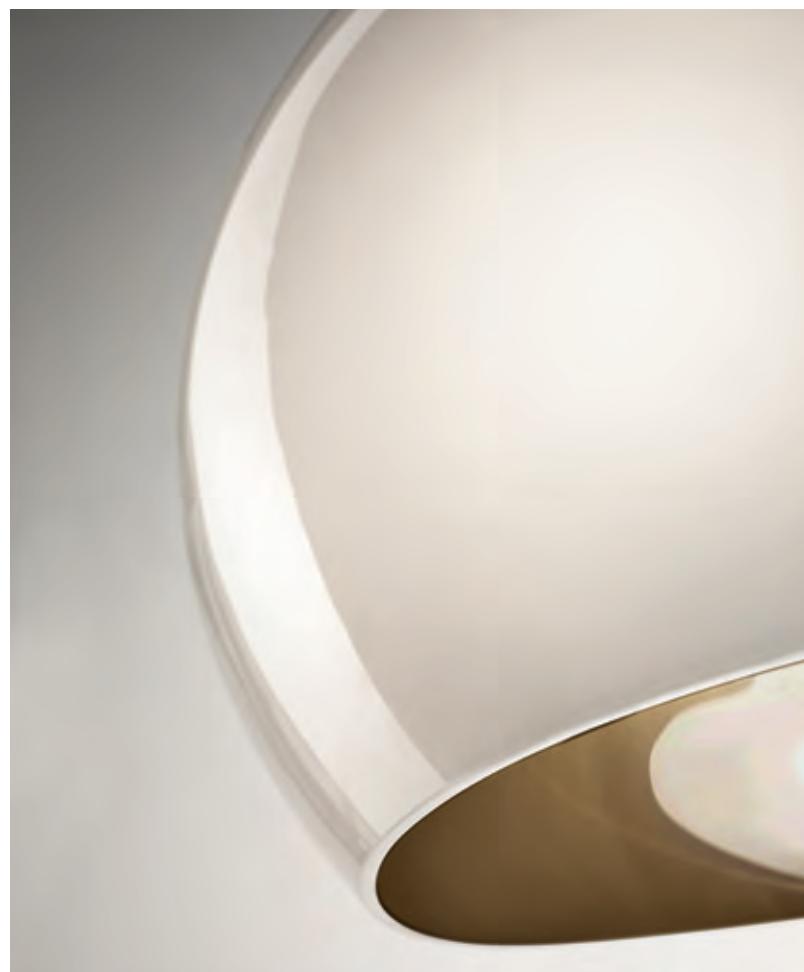

design Giovanni Barbato 2017

Surface ridefinisce il concetto di superficie: un'estensione del vetro la cui forma è in continuo mutamento. Generata dall'unione e l'intersezione di due solidi in rotazione, assume figure diverse a seconda del punto di vista, lasciando all'osservatore il compito di interpretarlo e reinterpretarlo volta per volta.

Tonalità interna del vetro: fumè, terra bruciata, verde antico, bianco (esterno sempre bianco).
Parti metalliche: nickel.

Surface redefines the concept of surface: an extension of glass whose shape is constantly changing. The light source, which is generated by the union and intersection of two solids of revolution, takes different shapes depending on the observer's point of view, thus letting them interpret it over and over again.

*Internal glass colour tone: smoky, burnt sienna, navy green, white (outside always white).
Metal parts: nickel.*

Starnet SP 1

STARNET

design Gianni Veneziano e Luciana Di Virgilio | Veneziano+Team 2015

Infinite trame di tessuti di cristallo permettono di realizzare le composizioni preferite e di modificarle a proprio piacimento in qualsiasi momento.

Tonalità del vetro: cristallo.

Parti metalliche: cromo.

Infinite crystal wefts allow to realize the preferred compositions and to change them anytime on request.

Glass colour tone: crystal.

Metal parts: chrome.

Poc LT 35/25/P

POC

design Barbara Maggiolo 2003

L'esclusivo impiego della membrana interna nella collezione Poc genera, come una lente, l'effetto di una sfera composta da due metà. La resa di ogni membrana è diversa, creando per ciascun pezzo dinamiche variazioni di intensità di luce e colore sulla superficie.

Tonalità del vetro: bianco e membrana in cristallo, nero e membrana in cristallo o cristallo e membrana bianca e nera.

Parti metalliche: nichel satinato.

The spherical glass presents an internal membrane that acts as a lens to create the illusion of being made in two halves and adds a sense of dynamic change of intensity and colour to the surface, that allows the uniqueness of each piece.

Glass colour tone: white with crystal membrane, black with crystal membrane or crystal with white and black membrane.

Metal parts: satin-finish nickel.

Tubes LT 40/20

TUBES

design Matthias Hickl per Lissoni Associati 2005

Una serie di cinque elementi lineari di diversa lunghezza in vetro soffiato, che si possono usare come singole sospensioni, lampade da tavolo, lampade a soffitto o in combinazioni multiple.

Tonalità del vetro: bianco lucido, fumè semitrasparente.

Parti metalliche: nichel opaco.

A series of five elements of straight lines in different lengths, made of mouthblown glass and that can be used as standalone pendants, table lamps and ceiling fixtures or for multiple combinations.

Glass colour tone: glossy white, smoky.

Metal parts: opaque nickel.

NOVECENTO

design Romani Saccani Architetti Associati 2013 - restyling 2017

La chiave di lettura della collezione Novecento è la volontà di sintetizzare la tradizione muranese del lampadario, nel suo elemento più riconoscibile: il profilo. Lo riproduce un guscio di cristallo che è il prodotto della rotazione a 360° della silhouette del lampadario, mantenendo così le caratteristiche delle forme originali, e risultando perfetto per atmosfere sia classiche che contemporanee.

Tonalità del vetro: bianco, cristallo rigadin.

Parti metalliche: cromo.

The idea behind the collection Novecento is to reduce the traditional Murano chandelier to its most recognizable elements, its profile. This shape is then reconstructed in a 360° glass outline, that keeps the same characteristics of the original design and is therefore suitable for both classic and contemporary ambiences.

Glass colour tone: white, rigadin crystal.

Metal parts: chrome.

Novecento LT

Novecento PT

GIOGALI

design Angelo Mangiarotti 1967

Un sistema decorativo d'illuminazione basato sull'elemento del gancio di cristallo componibile. Disponibile in diversi colori, montabile in versione da tavolo, da soffitto, sospensione, da parete e da terra. Può essere impiegato in grandi lampadari e strutture di qualsiasi dimensione.

Tonalità del vetro: cristallo, bianco, nero, cromo, oro, bronzo o colorato a richiesta.

Parti metalliche: cromo.

A decorative lighting system based on a single element, the handmade glass link. It is available in different colours, as standard table, ceiling, pendant, wall fixture and floor or that can be arranged to offer chandeliers and structures of any dimension.

Glass colour tone: crystal, white, black, chrome, gold, bronze, or custom colour.

Metal parts: chrome.

Minigiogali SP RAI

MINIGIOGALI

design Angelo Mangiarotti 1967 - restyling 2009

La versione ridotta di Giogali, che permette di impiegare i ganci in cristallo per installazioni a parete di minori dimensioni, standard o su misura.
Tonalità del vetro: cristallo, bianco, nero, cromo, oro, bronzo o colorato a richiesta.
Parti metalliche: cromo.

*The small size version that helps to expand the range of Giogali to smaller wall fixtures, both standard and custom made.
Glass colour tone: crystal, white, black, chrome, gold, bronze or custom colour.
Metal parts: chrome.*

ECOS

design Renato Toso, Noti Massari & Ass.ti 2007

Collezione di lampade componibili con anelli di vetro di diversi colori e textures. È una soluzione d'illuminazione che offre grandissima possibilità di personalizzazione in termini di forme e misure.

Tonalità del vetro: bianco, alessandrite 'rigadin', cristallo 'rigadin'.

Parti metalliche: cromo.

A system made with multiple glass rings, available in different colours and textures that offer a high level of personalization in terms of shape and size.

Glass colour tone: white, alexandrite 'rigadin', crystal 'rigadin'.

Metal parts: chrome.

DIADEMA

design Romani Saccani Architetti Associati 2005

Diadema è un sistema di illuminazione basato sul singolo elemento della canna in puro vetro. Combinando canne di diverse dimensioni, la luce si riflette e si trasmette in una sensazione di movimento. La montatura metallica permette numerose varianti e ampi margini per versioni su misura, sempre a scomparsa, grazie al sistema di fissaggio ideato appositamente per questo modello. Tonalità del vetro: cristallo, topazio. Parti metalliche: cromo.

Diadema is a lighting system based on a single element, the rod of pure glass. It takes advantage of the way it reflects and transmits the light, while offering a sense of movement by using rods of different sizes. The metal body allows to offer multiple variations and ample space for custom-made versions with concealed metal body, thanks to the fixing system developed for this collection. Glass colour tone: crystal, topaz. Metal parts: chrome.
